

Ski Care Guide

- 1) Use skis on groomed trails only.
Do not ski over areas of mud, gravel or cement
- 2) DO NOT use any wax on the skis,
these are skin skis and do not require wax
- 3) Always ensure manual bindings are closed during transport
- 4) Use ski ties to bind skis, this avoids scratches
- 5) Treat equipment kindly
- 6) Do not alter equipment in any way

Trail Etiquette

- 1) Refrain from walking on groomed trails
- 2) Move off the classic track when herring boning up hills
- 3) On a hill the down hill skier has the right of way, move to the side if you see someone coming
- 4) Ski single file
- 5) If you see the Park Staff, thank them for the great trails!
- 6) The Park Staff have groomed one track classic and a skate ski lane next to it
- 7) Be mindful that although you are comfortable with your dogs, others may not be
- 8) Be courteous and friendly to other skiers and be nice to the trails
- 9) Pack in what you pack out
